SEND THIS MESSAGE Reset View Email Archives HELP

This diagram illustrates a user interface for a public sender's area. At the top left, there is a logo for 'The Emergency Email Network' and a slogan 'It's what the Internet was made for'. To the right, there is a statement about being a 'national community service' and a 'public private partnership'. Below this, the title 'PUBLIC SENDER'S AREA Authoring System - ANY COUNTY USA' is displayed, along with sub-options 'Create/send and View Email Messages' and 'Subject Line'. A 'Priority Code' input field is shown with the number '204' next to it. The main body of the interface contains a large text area labeled 'Message Copy for Normal Email Device, i.e. Computers'. Below this, another section is labeled 'Message Copy for Device' with an associated input field, also marked with the number '201'. Further down, there is a section for 'Alternate Device Type' with its own input field and priority code '202'. At the bottom of the interface, there are four buttons: 'SEND THIS MESSAGE', 'Reset', 'View Email Archives', and 'HELP', each enclosed in its own box. Callout numbers '203' and '205' point to the 'Message Copy for Device' sections. Callout numbers '204' and '202' point to their respective priority code fields.

e-mail address or electronic message address

302

Submit

The diagram illustrates a web form structure. At the top left is a URL field containing 'http://.....'. To its right is a status code '301'. Below the URL field is a large rectangular input area. Inside this area, at the top left, is the text 'e-mail address or electronic message address' followed by a smaller rectangular input field. To the right of this input field is a status code '302'. At the bottom left of the main input area is a horizontal button labeled 'Submit'. The entire form is enclosed in a double-lined rectangular border.
